Executive Summary

The U.S. is suffering from an acute shortage of registered nurses (RNs) that will reach crisis proportions, as America continues to age — an additional 139,000 qualified nurses are needed immediately, but in 10 years, this shortage will more than triple. Sadly, declining enrollment in U.S. nursing schools and high rates of attrition among existing nurses suggest that the present dislocation of supply and demand will not correct itself. The life-threatening implications of these shortages have prompted emergency legislation, at federal and state levels, which now encourage professional staffing firms to actively recruit qualified nurses from English-speaking countries with advanced healthcare systems, such as the Philippines and Canada. Medical Staffing Pros intends to exploit this business opportunity, by applying its 25 years of recruiting experience, direct knowledge of the healthcare industry, and strong global relationships, to deliver a dependable supply of registered nurses to the U.S. In 2004, the U.S. market for recruitment of RNs is projected to be \$2.1 billion — by 2009, this figure will reach \$3.4 billion, an average annual increase of nearly 17%. Keys to success include establishing full commercial capacity, effectively marketing company services, proliferating strategic alliances, and researching and developing new services and markets. The company is led by a veteran recruiter and supported by a strong management team.

Company. Medical Staffing Pros will be a premier, global search firm, specializing in recruitment of registered nurses and other healthcare professionals. It is a limited liability company with administrative headquarters, located in North Sandy Beach, SC, and a satellite office located in metro Manila, in the Philippines.

Services. The company specializes in recruiting qualified RNs, from domestic or foreign sources, to meet the dire shortage of nursing care that exists in the U.S. Healthcare professionals are recruited for U.S. hospitals, nursing homes and other medical providers on a permanent placement or temporary contract basis.

Market. The present U.S. demand for RNs exceeds supply by 139,000 positions — by 2010, the shortage will increase to 455,000, an increase of 227%. In 2004, the U.S. recruiting market for registered nurses is \$2.1 billion — by 2009, this figure will escalate to \$3.4 billion, an average annual growth rate of nearly 17%.

Industry. Existing providers include recruiting firms that are generalists, with little experience in the healthcare industry, or end users who rely on their own efforts, but have few professional recruiting skills. Medical Staffing Pros has specialized skills and global contacts that will allow it to dominate existing competition.

Strategy. Strategies for success include: establishing commercial capacity, by October 1, 2005; maximizing company revenues, through multi-channel advertising; optimizing operating processes, to maximize efficiency and customer satisfaction; and promoting research and development of new services and markets.

Implementation. The operating plan will focus on creating retail infrastructure, by establishing permanent, domestic and international offices, and by forging strategic alliances with key customer groups. The marketing plan will rely on an aggressive, multi-channel marketing campaign, along with a robust R&D program.

Management. The company is led by a veteran recruiter, who has specialized in the healthcare industry and has successfully placed over 100 foreign RNs. He will be supported by a strong management team, with extensive experience and key healthcare contacts, along with an anticipated Board of Advisors.

Risk Assessment. Medical Staffing Pros is poised to exploit the critical, long-term shortage of registered nurses that exists in the U.S. and which threatens the quality of healthcare in America. Successful financing, strategic alliancing, effective marketing and continued expansion are all viewed as highly achievable.

Financial Summary

Medical Staffing Pros is seeking investor contributions, totaling \$1,500,000, by August 1, 2004. This cash infusion would result in dramatic revenue and income growth, during the three-year planning period, and position the company to expand its recruiting services, throughout the U.S.

Capitalization Plan. Medical Staffing Pros proposes to pursue its strategic objectives, by obtaining investor contributions, totaling \$1,500K, by August 1, 2004. These funds would be applied to identifiable working capital requirements of \$755K, relating to advertising & promotion and professional services expenses, identifiable capital expenditures, totaling \$45K, and the creation of contingent cash reserves, totaling \$700K.

Projected Operating Results. Sales are projected to rise, from \$3.0 million in FY1, to \$30.6 million in FY3. During this period, net income is projected to increase, from \$43K in FY1, to \$13.0 million in FY3. Monthly net cash flow reflects pre-operating losses; minimum cash balance is \$706K; ending cash is \$18.8 million.

Company and Services

The company specializes in recruiting qualified RNs, from domestic or foreign sources, to meet the dire shortage of nurses that exists in the U.S. Qualified healthcare professionals are provided to U.S. hospitals, nursing homes and other healthcare providers on a permanent or contract basis.

Business Summary. Medical Staffing Pros will be a leading, global recruiter of registered nurses and other healthcare professionals for permanent placement or temporary contract, by hospitals, nursing homes, ambulatory centers, and other healthcare providers, in the U.S. By leveraging vast professional recruiting experience, direct knowledge of the healthcare industry, and a strategic network of international recruiters and agents, Medical Staffing Pros is perfectly positioned to help address the critical need for RNs in the U.S. that will extend to at least 2020. The company works directly with end users to fulfill their nursing requirements, or may work on a brokered basis, with other recruiting firms. Main revenues are derived from percentage or hourly recruiting commissions, earned on permanent placements or temporary contracts.

REGISTERED NURSE RECRUITMENT

U.S. and International

Following two months of pre-operating activities, Medical Staffing Pros will launch operations, as a premier recruiter of registered nurses and other healthcare professionals, drawing from domestic and offshore labor sources.

- ◆ *Broad Experience:* 25 years of domestic and foreign recruiting experience.
- ◆ *Recruiter Network:* Access to national and international industry contracts.
- ◆ *End Use Adaptability:* Process permits permanent or temporary placement.
- ◆ *Compensation Flexibility:* Capable in brokered or direct to end user role.
- ◆ *Value-Added Services:* Full training and technical support will be available.

PROJECTED REVENUE STREAMS

Beginning October 2004

Permanent Placement:

- ◆ *Brokered:* Pre-screens candidates for other recruiters, resulting in a 25% revenue sharing.
- ◆ *Direct To End User:* Order received directly from end user, resulting in a full commission.

Temporary Placement:

- ◆ *Brokered:* Provision of candidates for other recruiters, who bear relevant labor expenses.
- ◆ *Direct To End User:* Order received directly from end user, resulting in hourly billing rate.

AVG. UNIT REVENUES

Permanent Placement

Brokered: \$8,300
Direct: \$12,000

Temporary Placement

Brokered: \$700/Mo.
Direct: \$9,000/Mo

Gross Margin: 77%

Fulfillment. The company will utilize job fairs, state-of-the-art web presence and a multi-media blitz to identify domestic RN requirements and qualified, U.S.-based nurses. A network of immigration attorneys, training centers and international agents will extend the search for qualified RNs to English-speaking countries, with well-developed healthcare educational systems, such as the Philippines, Canada, Ireland and the U.K.

Competitive Comparison. As a veteran healthcare recruiter, the company owner has profound knowledge and contacts that recruiting peers, most of whom are IT casualties of the .com era, simply do not possess.

Long-Term Positioning. Medical Staffing Pros intends to leverage its inaugural successes, by expanding its global reach, and by exploiting synergistic business opportunities that may arise. This will include providing web-based HIPAA-compliant certification, as a requirement for all RNs or other individuals th,jbhvced.

Market and Industry

In 2004, the U.S. recruiting market for registered nurses is projected to be \$2.1 billion — by 2009, this figure will reach \$3.4 billion, an average annual growth rate of nearly 17%. Medical Staffing Pros has specialized skills and global contacts that will allow it to dominate existing competition.

General Market Analysis. The quality of healthcare in the U.S. is under assault, by an acute, and growing, shortage of registered nurses. In 2004, the demand for qualified nurses is 2.1 million, but declining matriculation from nursing schools and stress-related attrition from the existing workforce has resulted in a shortage, totaling 139,000 — in only 10 years, this shortage will escalate to 455,000, an increase of 227%.⁸ Legislative initiatives to alleviate this criticality have focused on financial incentives and relaxation of immigration

Market Segmentation. In 2005, it is projected that 37 states will report RN shortages — by 2010, all but 4 states will have shortages, some as high as 63%.⁹ Medical Staffing Pros is targeting the top 12 states with the most urgent need. In 2004, a nationwide RN shortage of 139,000 will result in a projected RN recruiting market, totaling \$2.1 billion. By 2009, this figure is anticipated to reach \$3.4 billion, an average annual growth rate of 16.8%.¹⁰ This broad, national market is comprised of **California (12%)**, **New Jersey (9%)**, **New York (8%)**, **Tennessee (8%)**, **Pennsylvania (7%)**, **Texas (7%)**, **Florida (6%)**, **Georgia (6%)**, **Virginia (5%)**, **Connecticut (5%)**, **Arizona (5%)**, **Indiana (4%)** and **All Other U.S. (18%)**.

Secondary Markets. In addition to its primary markets, the company will target a large, secondary market for HIPAA-compliant training that is compulsory for U.S. and foreign-based healthcare professionals.

General Industry Characteristics. Key providers of RNs include hospitals and other end users, which are not very proactive, and professional recruiting firms, which tend to be generalists with few global contacts. There is also a cottage industry of source-country exploitation specialists, who prey on their own nationals.

KEY COMPETITOR	STRENGTHS	WEAKNESSES
End User - HR Search: <ul style="list-style-type: none"> ◆ Catholic Health West ◆ Tenet Hospitals ◆ HCA Hospital Corp. of Am. 	Large healthcare institutions with in-house HR functions; direct insight into immediate needs; ability to recruit in-house or at job fairs.	Not generally proactive; rely on candidates to reveal themselves; focused on HR procedures, not professional recruiting techniques.
Professional Recruiters: <ul style="list-style-type: none"> ◆ American Mobile (Nashville) ◆ Cross Country (Boca Raton) ◆ Kforce Staffing (Tampa) ◆ Robert Half (Menlo Park) 	Large, experienced firms, capable of providing permanent and contracted placement, including travel nurses, with range of credentials.	Recruiting generalists, not specialists in healthcare professionals; focused on nurses available in the U.S.; rudimentary global contacts.

Competitive Edge. Medical Staffing Pros has vast recruiting experience, including a long tenure as a healthcare specialist. Profound knowledge, regarding RN licensing and certification requirements in the U.S. is supported by a global network of immigration attorneys, source-country agents and competent trainers.

Management and Strategy

Strategies for success include: establishing commercial capacity, by October 1, 2004; maximizing revenues, through multi-channel advertising; optimizing key operating processes, to maximize efficiency and assure customer satisfaction; and promoting research & development of new markets.

Management Team. Key positions that are filled include Chief Executive Officer, Vice President of Operations, Director of Business Development and Chief Financial Officer — a Board of Advisors is anticipated.

John J. Visionary
Chief Executive Officer, Medical Staffing Pros
 25 year of domestic and foreign recruiting experience. Specialist in the healthcare industry, with extensive history involving IT & nurse staffing. Holds M.A., Communications, San Diego State U.; B.A., U. of Hawaii; former Marine.

Benjamin Rossi
Vice President of Operations
 Extensive application in the financial arena in option and stock trading for private investors. Consulting with numerous private investment firms

Jim Miller
Director of Business Development
 Renowned motivational speaker and performance enhancement expert. National Spokesperson, UHIPPAU. Background includes musician and

Marjorie Fine
Chief Financial Officer
 25 years of extensive management consulting and IT experience, as a top software application engineer. Holds B.A., Management Informa

Strategic Objectives. The company's three-year mission is to become a leading, global recruiter of RNs and other healthcare professionals, to meet the dire, and growing, shortage of qualified nursing care that exists in the U.S. An implementation plan has been developed that is premised on these strategic goals:

- **Establish Full Commercial Capacity:** Pre-operating tasks will need to be completed, in order to assure the effective commencement of business operations, by October 1, 2004. This will entail: (a) negotiating suitable lease space, in N. Sandy Beach, SC, purchasing furniture, fixtures & equipment,
- **Maximize Company Revenues:** The company will assure revenue growth by: (a) conducting an aggressive, multi-channel marketing campaign that includes print and web-based advertising, direct mailing, job fairs, business development, and networking with customer groups; and (b) gradually
- **Optimize Key Operating Processes:** The company will maximize operating efficiency and customer satisfaction, by: (a) establishing a company that is owned and operated by employees, who are eligible for stock options; (b) incentivizing staffing candidates with generous referral fees, cash or gift
- **Promote Research and Development:** Long-term success will rely on a robust research and development program, which focuses on new services, such as HIPAA certification programs or other synergistic offerings, and which continually extends global reach, by identifying new sources of RNs.

NOTES: (1) UNIT VOLUME: Medical Staffing Pros benefits from four revenue streams, most of which are anticipated to become operational, beginning October 1, 2005, following a 2-month pre-operating period, during which preparatory activities will be undertaken. Temporary Contract revenues arise from the non-permanent placement of independent contractors, and continue for the duration of contractor retention, under one of two compensation methodologies:
 (1) Brokered, allocated commissions, involving Medical Staffing Pros and another intermediary recruiter that holds the actual requirements order from the end user and bears the burdened costs of the contracted labor; or
 (2) Direct To End User, full commission basis, when Medical Staffing Pros holds the order and bears all labor costs.
 Permanent Placement revenues arise from the permanent placement of employees, and are collected in a single fee, at the time of hire, under one of two compensation methodologies:
 (1) Brokered, split-fee basis, involving another intermediary recruiter that holds the actual requirements order; or
 (2) Direct To End User full fee basis, when Medical Staffing Pros holds the end user requirements order.
 (2) UNIT PRICE:
 TEMPORARY - BROKERED: Allocated Commission = 2,080 nursing hours/year, divided by 12 months x \$4/hour worked.
 TEMPORARY - DIRECT TO USER: Full Commission = 2,080 nursing hrs./yr., divided by 12 months x \$60/hour worked.
 PERMANENT - BROKERED: Average Split-Fee = Forecasted Sales, divided by Unit Volume.
 PERMANENT - DIRECT TO USER: Full Fee = Average \$60,000/yr. salary x 20% fee.
 (3) FORECASTED SALES - All Revenue Streams: Unit Volume x Unit Price.
 (4) UNIT COST OF SALES - TEMPORARY - DIRECT TO USER: 2,080 nursing hours/yr., divided by 12 mo. x \$50/hour.
 (5) COST OF SALES - TEMPORARY - DIRECT TO USER: Unit Cost of Sales x Unit Volume.

Net Income

Net income is positive, beginning in Month 8, and for FY1 through FY3, is projected to be \$43K, \$6.1 million and \$13.0 million, respectively. During this period, gross margin, as a percentage of sales, ranges from 77% to 78%; net income, as a percentage of sales, ranges from 1% to 42%.

NOTES: (1) Percentage of sales on credit assumed to be 100%, subject to 30-day collection period. (2) Estimated balances, assuming 10% of expenses paid in cash and average 30-day payment period. (3) Reflects original owner investment (\$36K), plus paid-in-capital of new investors (\$1,500K), assumed to occur, on August 1, 2004.																

Key Financial Indicators. Working capital is not anticipated to fall below \$788K, once investor contributions are obtained, and it is expected to increase from \$1,505K, at the end of FY1, to \$20.6 million, by the end of FY3. The debt-to-equity ratio ratably declines, from 0.21 at the end of FY1, to 0.07 at the end of FY3.

Management Representation. The financial projections included in this business plan represent, to the best of management's knowledge and belief, the results of operations, cash flow and account balances, which would likely occur, assuming Medical Staffing Pros obtained investor contributions, totaling \$1,500,000, by August 1, 2004, in support of operations, commencing on October 1, 2004. Management represents that assumptions underlying these projections are reasonable and supported, and that financial presentations were prepared in conformity with generally accepted accounting principles, but were not compiled, nor examined, by an independent public accountant, and should not be viewed in that context.
